How The Body Kills Germs.

Germs that get into the body are killed in two vays—by the white corpuscles of the blood, and by a germ-killing substance that is in the blood. Just what this substance is, we lo not know. The blood of a healthy person always has some germ-killing substance in it to ward off the attack of disease. The fountain head of life is the stomach. A man who has a weak and impaired stomach and who does not properly digest his food will soon find that his blood has become weak and impoverished, and that his whole body is improperly and insufficiently nour ished. To put the body in healthy condition, to feed the system on rich, red blood and throw out the poisons from the body, nothing in the past forty years has excelled Dr. Pierce's Golden Medical Discovery, a pure

glyceric extract (without alcohol), of bloodroot, golden seal and Oregon grape root, stone root, mandrake and queen's root with black cherrybark.

queen's root with black cherrybark.

"My husband was a sufferer from stomach trouble and impure blood." writes Mrs. James H. Martin, of Frankfort, Ky. "He had a sace on his face that would form a scab which would dry and drop off in about a month, then another would immediately form. It continued this way for a long time. He tried every remedy that any one would suggest but found no relief. He then tried Dr. Pierce's Golden Medical Discovery which completely cured him. He has stayed cured now for two years, and I recommend this valuable medicine for impurities of the blood."

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-conted, tiny granules.

A pretty smile is a business assect.

If you are on the stage it helps a lot, I can assure you, and if you are a home girl or spend many hours a day behind counters or deaks don't underestimate the value of a smile.

A smile, the right kind, will draw extra pin money out of father or piscate the disagreeable old customer who doesn't know her own mind and wastes hours of your ime and every ounce of your patience.

New you can't have a pretty smile unless you have good teeth.

Good teeth ruln a beautiful one.

I don't think haif enough attention is paid to "teeth," and to begin with, most mothers have a casual way of the most wonderful fillings of porce-lain the same shade as the tooth, with a bit of pink porcelain gum above it to hide the joining. A child's teeth only get the right amount of attention when a screaming youngster announces that his teeth as well as the outer. There are many kinds of tooth sctually hurt him, and the family sweeps down upon the dentist.

The Value of First Teeth.

First teeth should not be allowed to fall out or to be pulled without the advice of a dentist, because on these first teeth depend the beauty of the second teeth, their shape and regularity.

How to Smile.

A great many people close their eyes almost completely when they smile, making many little lines at the cor-ners of the eyes. Of course, these lines will create wrinkles in time, and though they are pleasant, laughing wrinkles I have never heard of anyone yet who was anxious to have them as keepsakes of former laugus. But you can smile with your lips as much as you like and the lines won't matter. Only don't squinny up

RECEIVERSHIP TO HELP ORIENT ROAD

Reorganization on a Five Per Cent Bond Basis to Follow.

According to the latest information about the Kansas City, Mexico & Orient railway from its representatives here, the reason for its going into the hands of a receiver is not due to financial troubles, but to technicalities. The bonds of the company have been issued on a four per cent basts. It was found that if the bonds were put on a five per cent basis the mile would be greatly quickened; so, in order for this change to be made, the commany went into the hands of receivers to immediately reorganize on a five percentage bond basis. A. E. Stillwell will remain at the head of the company and all the officials will remain the same.

The work on the road to Fort Stock-ton will be rushed and it is believed that the change will be of benefit to all concerned. The campany may

Worse Than Smallpox. Worse Than Smallpex.

Don't marry a conceiled man, because to have an oracle in the family is worse than having a perpetual case of smallpox. Observe the wife of the egolist, my dear. She has less liberty than a ticketofleave woman. She is of a mature age. She is intelligent—very alleria college products. She reads a mature age. She is intelligent—very likely a college graduate. She reads and thinks and possibly has ten times as much sense, and knowledge as her husband. But she is as much in teutise as if she were a feebleminded child of ten. She can't join a club, not even express an opinion until after she has saked husband and the oracle has moken. de away and not stand in his light.

she has asked husband and the oracle has spoken.

Of course the conceited man is easily worked. He is putty in the hands of any woman who is expert in spreading the salve, but think bow tired you can get of always having to flatter a man into doing the things that he should do! Consider the contempt you would come to have for a man whose vanity was so enormous and so ridiculous that he could be managed through it! Believe me, wafting hot eir at a man is an occupation that gets on a sensible woman's herves in a mighty short time.

Fron't marry an egotist. Just remember that the bigger a man's head is the smaller his heart, and that selflove crowds out every other emotion. The conceited man never has a real passion for any other human being but himself. Leave him to it.
